July Social Outing at Birdie's Recap

The Indiana Section hosted a social outing at Birdie's in Westfield on July 22nd. We had a good turnout to listen to John Nail, the City Engineer for Westfield, discuss the new pedestrian bridge project over SR 32. Afterward, attendees took in a competitive round of miniature golf. A huge thank you to John for presenting and to those who came out for the event.

Day Trip in Indiana

The Colgate Clock

Chances are you have used or had a family member use Palmolive for cleaning. Colgate has a former factory in Clarksville, IN that produced Palmolive. The factory was a state prison until 1923, when Colgate purchased the factory and converted it to a factory. On top of the factory is one of the world's largest single-facing clocks (it can be seen from 2 miles away!). The clock was moved from Jersey City.

While you are in the area, you might consider checking out other area attractions, which may cause you to stray into Kentucky.
