MINUTES OF THE INDIANA SECTION MEETING
February 27, 1969

The meeting was held at Anchor Inn in Indianapolis. Mr. William Fehribach presided at this meeting of 44 members and guests.

The National Resolutions Committee presented a time table by which any section that wants to submit a suggestion to the National Resolution Committee may do so. The suggestions to the committee will be reviewed and then returned to the individual sections for ammendment. These suggestions which are being developed throughout the country, will be reviewed in major discussion by the individual sections and will later be presented as recommended resolutions to be developed by the institute.

The following resolution was submitted by James Cox, Chairman of the Resolution Committee:

> Whereas, improved operations and safety resulting from removal of on street parking from arterial and downtown streets have been shown to benefit highway users on a system wide basis, and whereas such removal is often delayed or prevented because usual parking supply development programs are incapable of responding quickly to the rapid increase in demand brought about by elimination of curb parking; therefore, be it resolved that the membership assembled at the annual meeting recommend to the Board of Direction that the following be declaired to be a policy of the ITE.
>
> "The ITE favors the principal that new source of highway user funds be available for capital improvement programs for off street parking that are coordinated with the prohibition of parking on arterial and downtown streets as a traffic operation and safety measure."
>
> The committee would like to throw this back into-as a proposed resolution deleting 3 words - we'll delete "new sources of" and it reads this way, "The ITE favors the principal of highway user funds rather than the wording that new sources of highway user funds be made available. In essence we're saying this, that it is permissable to use highway user funds for the development of off street parking as long as it is coordinated with the prohibition of parking on arterial and downtown streets."
>
> The Resolution was defeted.

The Resolution Committee also presented a suggestion. (Chairman Cox acted as spokesman.) The suggestion delt with the duplicity of the Federal agencies jurisdiction in transportation matters and questioned the need for institute policy on the establishment of a single coordinating department.

The recommendation of the members present was that there was a need for such a department.

The Speaker for the evening was Dr. Kent Joslyn from the I.U. Dept. of Police Administration who gave an informative talk on Speed and Accidents and their relationship.

Board of Directors Meeting

December 9, 1969

President William J. Fehribach called the meeting to order. The following were present: Fehribach, Wilson, Michael, Grecco, and Kloeker.

The program for 1970 Purdue Road School was discussed. The two topics for the special session will be "Computer Applications to Traffic Engineering" and "Highway Safety." The ITE banquet will be at the Trails.

The section's membership in ISEF was discussed. A decision will be made at a later date.

Mr. Manny is to notify National ITE of the change in officers immediately after the meeting on December 11, 1969.

Mr. Manny is to advise National ITE of the dates and locations of the 1970 meetings as soon as possible.

It was the concensus of the board that the section should in principle support an engineer if qualified for elective office.

The board expressed a desire to nominate Mr. James H. Cox as a candidate for District III Director providing he can make personal arrangements. Mr. William J. Fehribach would be interested in the nomination if Mr. Cox decides against it.

Board of Directors Meeting

December 9, 1969

It was moved and seconded to accept Mr. Jerry L. Martin's application. Mr. Martin is applying for Junior Member in National ITE.

Forms from National ITE have been received for nominating Mr. Ellsworth Maxwell as an Affiliate member. Mr. Fehribach will submit the forms.
